

Take care of
your guests.
**And also
the planet.**

JVD: PRODUCTS THAT TAKE CARE OF YOU

For more than 40 years, our business has been about caring for the needs of our clients, their employees and their visitors. But our mission goes far beyond simply manufacturing products. To us, “care” is a global commitment, a philosophy that also encompasses responsibility towards the planet.

Our environmental commitment is at the heart of everything we do, and we are very proud that all our efforts in eco-design and sustainability have been rewarded with the prestigious Ecovadis Gold certification. This demanding recognition validates the progress we have made and strengthens our determination to go even further.

Day after day, we work hard to shrink our environmental footprint whilst continuing to innovate and design sustainable products, created with the future in mind.

JVD. Products that care.

MEETING THE DEMAND FOR OPTIMAL SERVICE

At JVD, **the quality of our customer service is as important as the quality of our products**... and that's saying a lot! Which is why you'll find the same responsiveness, the same attentiveness and the same desire to satisfy all of your requests, whether you're in Nantes or Singapore, Mexico or Germany.

The strength of our sales and customer service teams is built on their ability to put themselves in your shoes and to create a truly **close relationship** with you. Whether you interact with us by phone or by email, you'll feel like your JVD contact is right there with you!

5 days a week, our customer service team is here to listen and deliver personalised service to you

Reborn

By JVD

COMMITTED TO REFURBISHING

In 2024, Reborn by JVD became **the first refurbishing solution for hand dryers**. That project extends product lifespans by refurbishing them at our premises in Rezé, whilst recovering any discarded parts. **JVD has partnered with a vocational rehabilitation centre to train people with disabilities and people returning to work** on refurbishing and rebuilding these appliances.

At JVD, eco-responsibility is central to our strategy. From design to manufacturing, and from transport to recycling and repairs, we strive to reduce our social and environmental impact. In addition, we support the solidarity economy through partnerships like the one with Better with Water, and we also fight planned obsolescence. **At JVD, we are committed and engaged for the long haul.**

JVD is one of the **4%** of companies in our category to have earned the EcoVadis Gold Medal

Every detail counts

From product design to logistics, all the teams at JVD actively strive to think of everything and make a real difference.

We fight planned obsolescence by developing repairable products, and we prioritise partners and raw materials sourced as close as possible to our production plant.

We optimise our carbon footprint, from design to packaging.

OUR AIR PURIFIERS

PAGES 14-19

THREE GREAT REASONS TO INSTALL AIR PURIFIERS

Did you know that the air your guests breathe is poised to be as important as comfortable bedding and soft towels? In a world where air quality is becoming a growing concern, here are three great reasons to install air purifiers at your establishments.

REASON NO. 1: TO OPTIMISE YOUR GUEST ROOMS' AND MEETING ROOMS' OCCUPANCY RATES

What hotel has not been faced with the aggravation of having a guest room or meeting room rendered unusable due to unpleasant odours (like strong body odour, cigarette smoke, etc.)? By quickly eliminating those smells, our air purifiers are a chemical-free way to maximise your rooms' availability.

REASON NO. 2: TO TAKE GOOD CARE OF YOUR GUESTS AND STAND OUT FROM THE COMPETITION

Your guests are looking for a getaway that is synonymous with comfort, quality, rest and beauty. By removing allergens, pollutants, odours and contaminants from the air, our purifiers will improve your guests' experience, not to mention their sleep. This is sure to be a winning strategy amongst international guests who are already accustomed to air purifiers.

REASON NO. 3: TO DELIVER AN ADDED-VALUE SERVICE TO YOUR MOST SENSITIVE GUESTS

According to the World Health Organization, one in four people are allergic, a figure that is expected to rise to one in two by the year 2050. So, fitting out your establishments with air purifiers allows you to deliver a solution to a major public health issue, whilst appealing to and retaining a large customer base.

Shield
By JVD

COMMON AREAS – SHIELD

In your meeting rooms, gyms, lobbies, etc., treat your guests to an environment that is conducive well-being and concentration, whether they are there to relax or work.

A COMBINATION OF UNPARALLELED RESULTS AND A MASTERFUL DESIGN

PATENTED TECHNOLOGY: SMART MINERALISATION®

Our air purifiers capture and destroy pollutants. They have been tested by independent labs, using the protocols of the most demanding standards on the market.

ZERO CONSUMABLES

Not only does Smart Mineralisation deliver unparalleled results, but it also allows the device's technological components to self-decontaminate, eliminating the need to frequently restock or replace consumables.

DESIGN BY RAMY FISCHLER

The Shield range of air purifiers was crafted by designer Ramy Fischler, a member of the French Order of Arts and Letters since 2016, named Designer of the Year in 2018.

INNOVATION
BREVETÉE JVD

The Smart Mineralisation® technology used in our Shield devices requires no consumables or filters that have to be replaced. Our air purifiers were designed to last, using easily recyclable materials like steel.

OUR HAIR DRYERS

PAGES 20-29

MAKE YOUR GUESTS FEEL RIGHT AT HOME

Our hair dryers are elegant and easy to handle, designed to offer maximum comfort to your guests: a good grip on a sturdy accessory, packed with technology for gentle yet efficient drying and a design that leaves no one cold.

PAMPER YOUR GUESTS

Appreciated by more than two-thirds of surveyed guests and a compulsory amenity at hotels with four or more stars, hair dryers have gradually become a must in the field of hospitality. A study by the CMHF (Committee for the Modernisation of French Hotels) showed that hair dryers are the most important bathroom accessories, particularly popular amongst female guests. These handy, powerful and stylish devices give travellers all the convenience they expect, without having to lug their own hair dryers along with them.

UNTANGLE TRUTH FROM FICTION

Choosing a hair dryer is a question of more than just power! Some devices are designed to deliver superior drying quality at more moderate temperatures. So, in addition to protecting delicate hair by controlling the use of speed and heat, these appliances use much less energy, costing you less in turn. Plus, some solutions allow guests to adjust the speed and heat of the hair dryer.

INNOVATE WITH OUR IONISING SYSTEM

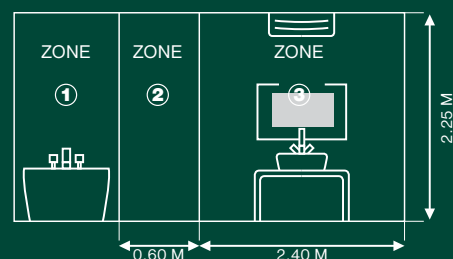

To neutralise the static electricity that can occur in hair during the drying process, some devices are fitted with an ionising system, which dries hair quickly, at a low temperature, without damaging the hair's fibres. The ions generated by this system neutralise static electricity.

PLAN FOR EVERY POSSIBLE USE

Hotel hair dryers are not subject to the same constraints as hair dryers marketed to the general public. Aside from the strict standards they must meet, hotel hair dryers are sometimes used in unexpected, undesirable ways (stolen, used to dry clothes or shoes, etc.). And so, they should be designed to limit those uses (e.g. JVD LighTouch® handle, timer, anti-theft protection, etc.) while still being a perfect fit for any bathroom. They require a dedicated mount, which should feature shaver sockets to meet the needs of an international clientele.

PROTECT EVERYONE'S SAFETY

To prevent any risk of electrocution, standard NF C15-100 defines a minimum distance between your electrical appliances and the main water tap (bathtub or shower). Only hair dryers with hoses can be installed close to this tap (in zone ②). All other devices must be installed no closer than zone ③.

LIGHTTOUCH®

RANGE

MADE IN FRANCE

This range was designed to respond specifically to how hair dryers are used in hotels.
 Its patented handle is already a big hit in thousands of hotels around the world.
 The many different options in terms of power, colour and mount ensure that we have the right solution for any environment.

OUR MIRRORS

PAGES 30-36

CHOOSE YOUR MIRRORS WITH CARE

Our mirrors are the result of a special alchemy melding innovation, performance and design. They invite guests to enjoy a unique experience with complete simplicity.

OPT FOR SIMPLICITY WITH NO ELECTRICAL CONNECTIONS

Our Cosmos, Galaxy and Eclips mirrors run on a lithium battery and a three minute auto-off system ensuring longevity of three to five years. These mirrors can safely be installed in any part of a bathroom, since they do not plug in.

SUPPORT FRENCH DESIGNS AND MANUFACTURING

Devised by our Design Department specifically for use in hotel bathrooms, our illuminated mirrors are made in Nantes, France.

PIVOT TOWARDS TILTABLE MODELS

Thanks to their double or triple rotational axis, our mirrors offer your guests the best possible reflection.

ADOPT AN ECO-FRIENDLY STYLE

Our illuminated mirrors are fitted with LED lighting to maximise their lifespan without having to change the bulbs and to reduce their energy consumption.

COSMOS

MADE IN FRANCE

+ PRODUCT PLUSES

- + 5x magnifying power
- + No electrical socket required
- + **ECO-DESIGN**
 - LED lighting all around the mirror

CHARACTERISTICS

- Runs on a standard (LR20 (D) / 3.6 V) lithium battery (included)
- Activated by a sensory system
- Timer: 3 minutes
- Battery life: ~3 years, depending on use
- 5x magnifying power
- 2 different arms available:
 - Tubular chrome brass: 4 mobile joints
 - Flat chrome brass: 3 mobile joints
- 2 year warranty
- Flat arm model dim. (mm): 225 (W) x 225 (H) x 100/240 (D)
- Tubular arm model dim. (mm): 255 (W) x 290 (H) x 100/350 (D)

METIS

AN ADJUSTABLE, FLEXIBLE CONCEPT WHICH MAKES IT EASY TO CONVERT A BATHROOM THANKS TO REMOVABLE AND INTERCHANGEABLE ELEMENTS.

Comprising removable and interchangeable elements, this range enables the evolution and conversion of bathrooms, easily and without any technical work, based on individual needs, to switch from a classic shower space to a comfortable, safe space accessible by people with reduced mobility. The adjustable, flexible aspect meets the constraints facing hotels, retirement homes and municipalities, where the bathroom can be used by anyone. The design of the proposed products also has a non-stigmatising effect thanks to the universal aesthetics.

P. 48

OUR MINIBARS

PAGES 46-49

FOUR TECHNOLOGIES TO HELP YOU CHOOSE THE RIGHT MINIBAR

Our minibars are fitted with next gen smart technologies. Whether they use thermo-absorption or thermoelectric systems, our minibars are eco-friendly, reliable and completely silent.

THERMO-ABSORPTION MINIBARS FOR MAXIMUM SAVINGS

Next generation thermo-absorption minibars blend the Peltier effect with absorption to generate cold. They are ecological, reliable and completely silent, consuming 66% less energy and therefore quickly offsetting the slightly higher cost (in less than a year).

THERMOELECTRIC / PELTIER MINIBARS FOR MAXIMUM RELIABILITY

Thermoelectric minibars use the Peltier effect to generate cold. They are very reliable but relatively noisy. Their temperature is not adjustable, and they consume relatively high quantities of energy.

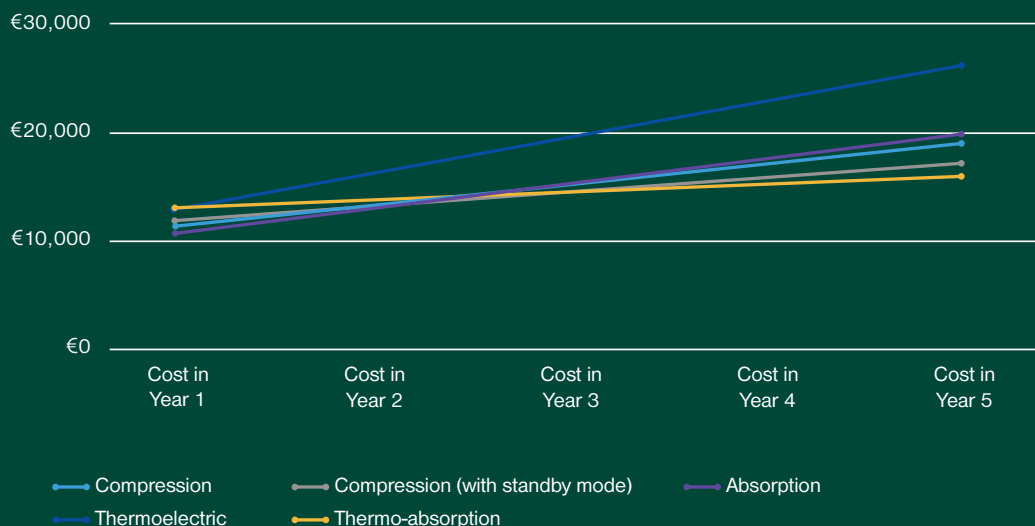

COMPRESSION MINIBARS FOR MAXIMUM EFFECTIVENESS

Compression minibars use a refrigerant to cause cooling by compression. They are effective and affordable but are often loud and tend to suffer wear and tear on the mechanical parts.

ABSORPTION MINIBARS FOR MAXIMUM AFFORDABILITY

Absorption minibars generate cold by heating a mixture that contains ammonia. They are very affordable, reliable and totally silent, but they sometimes require complete ventilation at the back and may emit a strong ammonia smell in the case of a leak.

OUR SAFES

PAGES 50-53

CHOICE FEATURES FOR YOUR SAFES

JVD safes are synonymous with peace of mind. Your guests have access to a robust, secure solution for their personal belongings. You have JVD solutions and service for the simple, easy management of your safes.

A JEWEL OF DESIGN

Our illuminated safes are designed with a backlit keypad and interior lighting to make them simple and easy to use.

A PASSPORT TO SECURITY

Our safes are fitted with an electronic anti-aggression mechanism and are blocked for 15 minutes after four failed attempts.

PROTECTED VALUE

If your guest loses their code, our safes can be unlocked using a key or a remote control.

PRECIOUS MEMORY

Thanks to the remote control, it is easy to view a history of actions (records of the dates and times when the safe was opened) and to unlock the safe.

ICONIC DRAWER SAFE

ICONIC
REF 8 66 664

+ PRODUCT PLUSES

- + Code locking mechanism
- + Fits a 15" laptop computer
- + Extra-flat
- + Installable in a drawer

CHARACTERISTICS

- Locks with a 4 to 6 digit code
- Blocked for 15 minutes after 4 incorrect attempts
- Lock release and control device for hotel management
- Illuminated keyboard and inside of the safe
- Power supply: 4 LR6 (AA, 1.5V) batteries (included)
- Warning when the batteries run low
- Closes with 2 steel bolts (20 mm diam.)
- Secure attachment: 2 points at the back and at the base
- 2 year warranty with lifetime support
- Inner dim.: 395 (W) x 342 (H) x 105 (D) mm (14 L)
- Outer dim.: 400 (W) x 350 (H) x 130 (D) mm

OUR WELCOME TRAYS & ELECTRIC KETTLES

PAGES 54-68

THREE ACCESSORIES TO MIX & MATCH, TO WELCOME YOUR GUESTS IN STYLE

Over a cup of hot chocolate, tea or coffee, each moment becomes a time of comfort, relaxation and well-being.

OPT FOR WELCOME TRAYS THAT SUIT YOUR ROOMS

The essential accessory to showcase your welcome products and to put the final touch of design on your rooms. Our broad range of trays made of wood, leather or melamine ensure there is something to suit any environment. With the possibility of incorporating the base of one of our kettles, they combine to form a perfect whole.

FIND ELECTRIC KETTLES THAT WILL LET YOUR GUESTS RELAX IN PRIVATE

Developed wholly in France by our Design Department in a combination of functionality, elegance and clever technology, our kettles will be able to accompany your guests' morning wake-up routines and moments of relaxation. Conceived specifically for hotels, they are also easy for your teams to clean.

OFFER ESPRESSO MACHINES THAT LIVE UP TO YOUR STATURE

Our machines are designed to offer a simple solution which will make delicious espresso for your guests. No need for a dedicated space: thanks to their small size, they can fit anywhere. The options offered by our espresso machines provide something for any urge, any moment and any guest.

- Child safety: Auto locks after 2 seconds
- 2 year warranty

Royce Hot water in an instant

A new experience for guests, a revolution for hoteliers

The Royce's concept is a simple one: heating the desired quantity of water to 100°C. And it is just as easy to use: in one motion, guests can choose how much water they want to heat.

The Royce can generate 90% energy savings compared to a standard electric kettle. Hot water is served at the right temperature in 8 to 15 seconds. The water tank is quick and easy to clean, with no need to descale it between uses.

P. 70

OUR GUEST ROOM ACCESSORIES

PAGES 69-78

In JVD's hospitality universe, **accessories make each room unique and transform a hotel stay into an experience in and of itself.** Every day, we innovate to provide hotel guests with accessories that combine style, technology, safety, ergonomics and convenience.

BERENGERE

BERENGERE RACK
REF 8 66 2241

Beech wood from a forest in Vendée, managed by the ONF (French Forestry Commission) and FSC certified (sustainably managed). Natural, unvarnished wood, so it is chemical-free.

Straps made from flax grown in France and woven in the Hauts-de-France department. Double braided for enhanced strength.

Made on a small scale and assembled in the workshops at the ESAT Atlantique vocational rehabilitation centre, which promotes the employment of people with disabilities.

+ PRODUCT PLUSES

- + COMPACT**
- + High-strength straps
- + No contact with the wall
- + Natural style
- + ECO-DESIGN**
 - Natural, unvarnished wood
 - Linen straps woven in France
 - Made by people with disabilities to contribute to their vocational training

CHARACTERISTICS

- Material: Beech wood
- Capacity: 220 kg
- 6 high-strength straps
- Unfolded dim. (mm): 632 (W) x 518 (H) x 558 (D)

The first 100% eco-responsible French luggage rack, the Berengere features a blend of French expertise. From the use of fine materials sourced locally to the employment of people with disabilities, this rack is a 100% ethical product.

P. 98

KITCHENS

PAGES 98-101

When it comes to waste management, JVD plays an essential role by making each space unique and by transforming waste disposal into an ecological experience in its own right.

We are committed each and every day to creating waste sorting bins that deliver a blend of style, convenience, safety and respect for the environment, in order to promote a more responsible approach to waste management.

- Easy to clean insect collection tray
- Power supply: 220-240 V - 50-60 Hz
- Power: 13 W
- Bulb type: LED
- Grid voltage: 4000 V
- Material: Heat resistant ABS
- Class II - IP20
- 2 year warranty
- Dim. (mm): 470 (W) x 255 (H) x 100 (D)

WHY CHOOSE JVD?

40 YEARS OF INNOVATION IN THE SERVICE OF WELL-BEING

Backed by four decades of existence – and above all experience – JVD has become **the essential company in field of hygiene for hotels and municipalities**. Thanks in particular to our Engineering Department and our close collaboration with the world of design, JVD is at the forefront of innovation today.

We conceive, design, manufacture and rigorously test all our products. Our strong, meticulous industrial processes guarantee the best possible quality, from the smallest components to our full customer service!

40,000 hand dryers and
400,000 paper and soap
dispensers are produced each year
at our site in Rezé, France

ALL THE QUALITY OF FRENCH-MADE PRODUCTS

With our **international reach**, JVD now has a foothold in more than 100 countries around the world. Even so, JVD has intentionally remained a local business.

Based outside Nantes, in France's Loire-Atlantique department, we source components from neighbouring departments, out of a concern for promoting local know-how and forging lasting relationships with our partners. **As a result, many JVD products are manufactured from end to end within a 200 kilometre radius of our base.** **With JVD, all the quality and innovation of French-made products is exported to you!**

100 countries currently benefit from JVD's homegrown expertise

MEETING THE DEMAND FOR OPTIMAL SERVICE

At JVD, **the quality of our customer service is as important as the quality of our products...** and that's saying a lot! Which is why you'll find the same responsiveness, the same attentiveness and the same desire to satisfy all of your requests, whether you're in Nantes or Singapore, Mexico or Germany.

The strength of our sales and customer service teams is built on their ability to put themselves in your shoes and to create a truly **close relationship** with you. Whether you interact with us by phone or by email, you'll feel like your JVD contact is right there with you!

5 days a week, our customer service team is here to listen and deliver personalised service to you

Reborn

By JVD

COMMITTED TO REFURBISHING

In 2024, Reborn by JVD became **the first refurbishing solution for hand dryers**. That project extends product lifespans by refurbishing them at our premises in Rezé, whilst recovering any discarded parts. **JVD has partnered with a vocational rehabilitation centre to train people with disabilities and people returning to work** on refurbishing and rebuilding these appliances.

At JVD, eco-responsibility is central to our strategy. From design to manufacturing, and from transport to recycling and repairs, we strive to reduce our social and environmental impact. In addition, we support the solidarity economy through partnerships like the one with Better with Water, and we also fight planned obsolescence. **At JVD, we are committed and engaged for the long haul.**

JVD is one of the **4%** of companies in our category to have earned the EcoVadis Gold Medal
